Summary

Computer Engineering student passionate about frontend and full-stack development. Experienced with React, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB. I enjoy building modern, responsive web applications with clean UI/UX and am currently expanding my knowledge in AI and scalable software engineering.

Education

GIDC Degree Engineering College, Bachelor of Engineering in Computer Engineering – Navsari, Gujarat July 2022 – May 2026

- GTU Affiliated
- CPI: 7.74
- CGPA: 8.51

Higher Secondary School, HSC in Science (Mathematics) 2022

Secondary School, SSC in General Education 2020

Experience

Data Analytics Intern, CSRBOX × IBM SkillBuild – Remote July 2025 – July 2025

- Completed a 15-day Data Analytics Internship.
- Performed data cleaning and preprocessing.
- Created dashboards using Tableau Public.
- Learned practical data visualization and analytical techniques.

Projects

Personal Portfolio Website June 2026 – present

Premium developer portfolio showcasing projects, skills, experience, and technical expertise.

- Built with React, Tailwind CSS, GSAP, and Framer Motion.
- Designed a modern glassmorphism interface with smooth animations and interactive UI.
- Implemented responsive layouts optimized for desktop, tablet, and mobile devices.
- Showcases projects, technical skills, certifications, and professional experience.

Healthcare Insights Dashboard 2025

Interactive Tableau dashboard analyzing healthcare workforce and HR metrics.

- Developed an interactive dashboard using Tableau Public for healthcare HR analytics.
- Visualized KPIs including average monthly income, job satisfaction, and environment satisfaction.
- Designed insightful charts to identify employee engagement patterns and workforce trends.
- Enabled data-driven decision-making through clear and interactive visualizations.

TubeLens

Jan 2026 – present

AI-powered YouTube analytics platform built with Flutter, Node.js, Express.js, MongoDB Atlas, and Python.

- Developed responsive Flutter frontend.
- Built REST APIs using Node.js and Express.js.
- Integrated MongoDB Atlas for cloud data storage.
- Connected Python microservice for AI-powered analytics.
- Designed scalable architecture for future AI features.

Skills

Languages: JavaScript, Python, Java, C, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Tableau, Figma

Currently Learning: Artificial Intelligence, Machine Learning, System Design

Certificates

Mobile Application Developer Internship Certificate

2026

Internship completion certificate issued by TechFusion Technologies.

Advanced Course Certificate

2025

SAP & Edunet Foundation certification covering Machine Learning, Internet of Things (IoT), Deep Learning, Computer Vision, and SAP ABAP on SAP Business Technology Platform (BTP).

Foundation Course Certificate

2024

SAP & Edunet Foundation certification covering Python Programming, Data Analysis with Python, Artificial Intelligence, and SAP Conversational AI Chatbot.
